

Go beyond comfort with **HAVEN**

Breathe Better

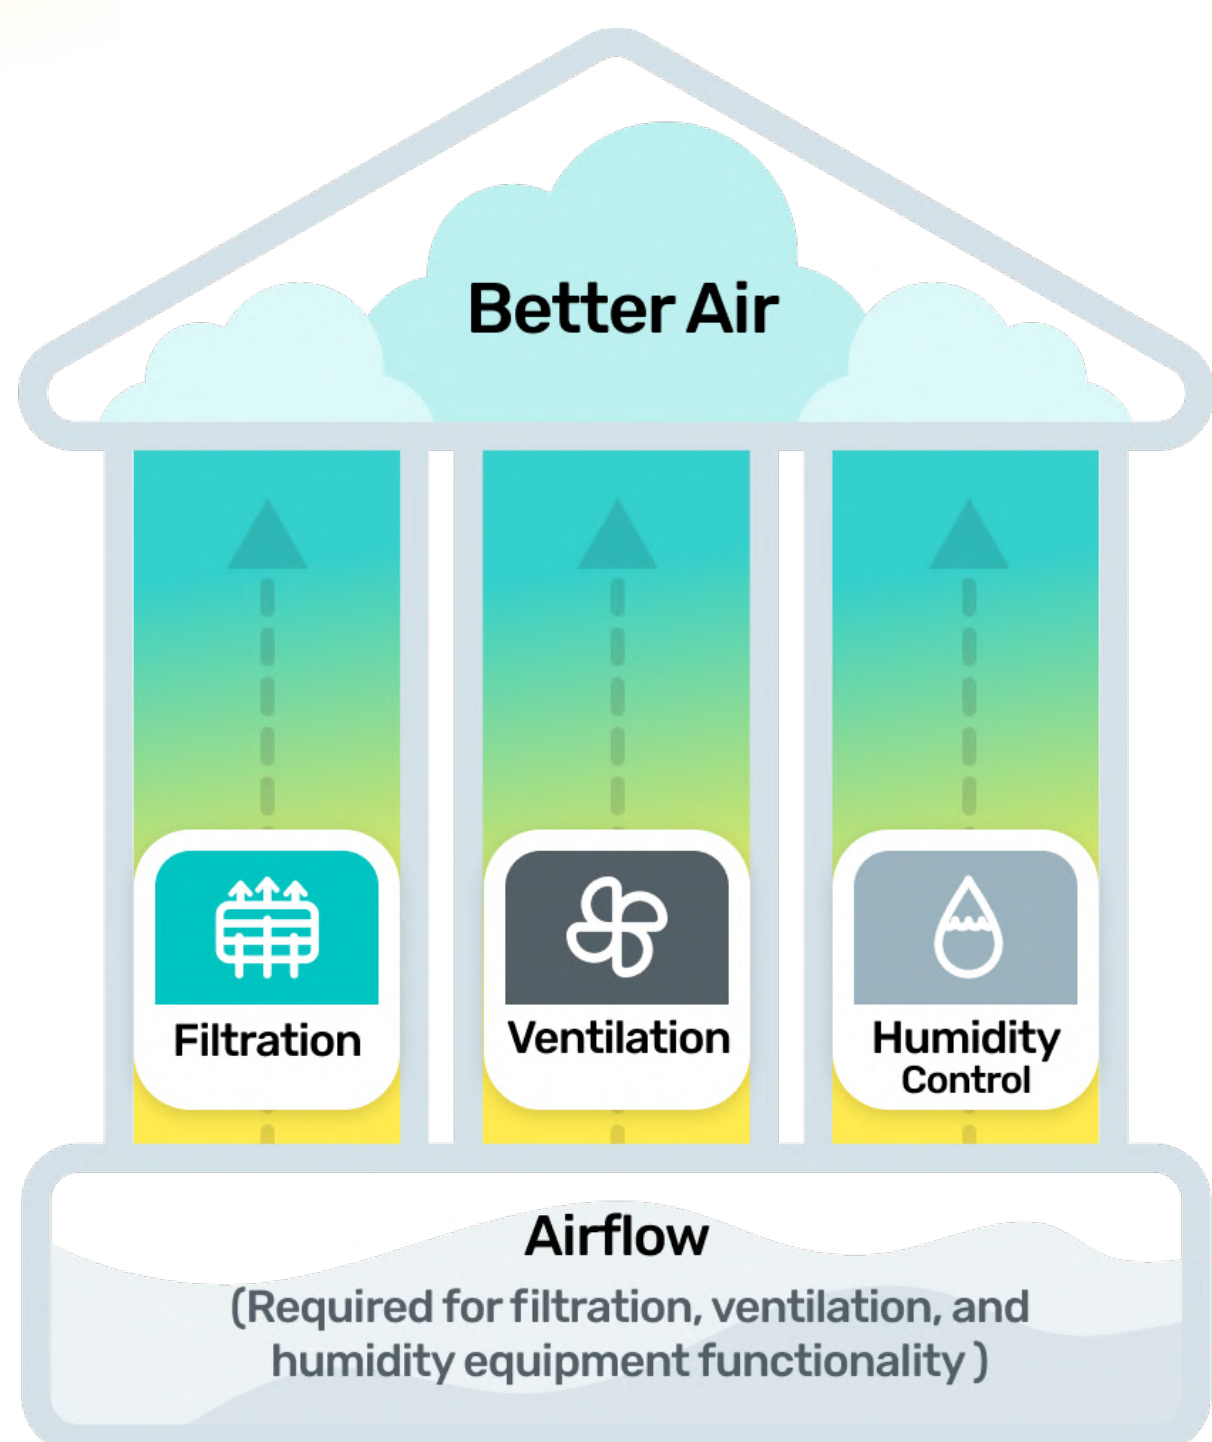

Your home, your **HAVEN**

HAVEN is your home's new clean air solution. Whole-home air quality management for long-term peace of mind.

-  Integrated directly into your home's HVAC system
-  Real time Air Quality score through the **HAVEN IAQ** app
-  Monitors & controls filtration, ventilation, humidity and airflow
-  Professional support through your dedicated HAVEN Pro

The 3 Pillars of IAQ

Living in a home with poor indoor air quality (IAQ) can challenge your immune and respiratory system, mental health, and productivity.

Filtration

Your **filtration** system helps capture airborne particles on a whole-home scale unlike room air purifiers, which only service one room at a time.

Ventilation

Proper **ventilation** replaces stale air with new outdoor air—removing any built up chemicals from off-gassing, and CO2 from breathing.

Humidity Control

Humidity control creates a comfortable and safe environment while preventing mold growth and damage to your home's structure and furnishings.

Airflow

The **foundation** of your home's air quality is **airflow**. Without airflow, the equipment that manages these 3 pillars can't function effectively.

How **HAVEN** takes care of your air

This professionally installed and maintained smart system gives you peace of mind that your home's air quality is healthy, safe, and meeting the needs of your family throughout the year.

1

The HAVEN Central Air Monitor and Controller are installed alongside your home's forced air system by your trusted technician. This innovative solution uses WiFi to add smart capabilities to your existing equipment.

2

The Monitor tracks several parameters with assistance from the HVAC system's airflow.

3

When air quality events are detected, the Controller activates your HVAC equipment automatically to increase circulation, filtration, and improve your air quality.

4

Carry on with your everyday activities! Breathe better, knowing HAVEN is taking care of your home's air.
